

# CMMI Crosswalks

Bridge global standards and best practices to accelerate your organization's compliance and improvement journey.

Ready-to-use comparisons and guidance, designed to support global standards implementation or audit readiness. CMMI Crosswalks help organizations in highly regulated or innovation-driven industries streamline compliance, reduce risk, and position for growth.

## Save time and reduce cost of multi-standard alignment.

Simplify process integration, minimize duplicate work and documentation of overlapping requirements for a smoother compliance and improvement journey.

## Comprehensive and easy-to-use cross-standard mapping.

Clear, side-by-side comparison organized for quick reference and traceability, ensures and accelerates the path toward process maturity, audit or certification.

*CMMI Crosswalks can be accessed through **CMMI Model Viewer Plus**.*

## CMMI AI Crosswalks

### Easily mitigate the risks and maximize the rewards of AI.

Mapped by experts across CMMI, AI and risk domains, the CMMI AI Crosswalks align CMMI AIM Model both to and from leading global AI governance, risk and compliance standards, corresponding clauses and requirements.

- ✓ **ISO/IEC 42001** Artificial intelligence - Management system.
- ✓ **ISO/IEC 23894** Artificial intelligence - Guidance on risk management (*use with ISO/IEC 31000*).
- ✓ **ISO/IEC 31000** Risk management - Guidelines (*use with ISO/IEC 23894*).
- ✓ **ISO/IEC 23053** Framework for Artificial Intelligence (AI) Systems Using Machine Learning (ML).
